

GHSA On-Line Eligibility Roster – Principal&Headmaster’s Guide

Purpose

The GHSA has implemented a web-based system for the reporting of non-transfer students that are to participate in GHSA sanctioned activities – or more commonly known as “Form A” Non-Transfer students. This system will replace the following paper forms:

- GHSA Form A – Certificate of Eligibility – Non-Transfer Students

Please discontinue the use of these forms.

System Overview

The GHSA online eligibility system allows student names and academic information to be easily entered and maintained in an online repository. The system is designed to be similar to the old Form A format, but will also give immediate feedback on each student’s eligibility – based on the current eligibility rules in the GHSA Constitution and Bylaws. Student eligibility data can also be uploaded via spreadsheet.

A new eligibility roster for each school will be created prior to each season (school year) – split into two (2) semesters. Starting during the summer preceding the beginning of the school year, student eligibility data (name, DOB, units, etc.) can be entered or uploaded into the system for the upcoming Fall semester. The system will display the eligibility status of each student and allow the students to be submitted for approval by the school principal, headmaster or other designated authority. Once the students have been approved, their eligibility for the semester is maintained in the system for later reference by the school or the GHSA.

At the end of the Fall semester, student academic data for that semester can then be updated or uploaded to determine the eligibility of each student for the Spring semester. Any students not entered previously can be entered as well – as long as they are not transfer students.

At the end of each season, a new eligibility roster will be created – retaining the student names from the previous season that still have semesters of eligibility remaining. The school can then update the units for prior students and only add entering 9th grade students.

Instructions – Approve Student Eligibility

Access to school eligibility information is restricted – users must login to the GHSA MIS website in order to access the eligibility forms. The Athletic Director at each school should have access to add and update students in the eligibility system. After logging into the GHSA MIS website (use the Login form at the top right corner of the home page) you should see the following items on the left side menu – School Eligibility Roster:
